The Custom of taking medicine in the form of ndépendance pills dates far back in history. The object is to quested to make immediate payment to selected as enable us to swallow easily in a condensed form disagreeable and nameous, but very useful, drugs. To what vast dimensions pill-taking has grown may be imagined when we say that in England alone about 2,000,000,000 (two thousand millions pills are consumed every year. In early day balf-chests pills were made slowly by hand, as the demand ce, and 177 was comparatively small. To-day they are pro-00 bales silk. duced with influitely greater rapidity by machines especially contrived for the purpose) and with greater accuracy, too, in the proportions of the various ingredients employed. No form of medication can be better than a

nl, alloe, of pill, provided only it is intelligently prepared. But right here occurs the difficulty. Easy as to 5 catties. it may seem to make a pill, or a million of them. 25 per picul, there are really very few pills that can be honestto b catties. ly commended for popular use. Most of them either undershoot or overshoot the mark. As everybody takes pills of some kind, it may be well to mention what a good, safe, and reliable Foremen should be at hand, orders for repairs if pill should be. Now, when one feels dull and sleepy, and has more or less pain in the headsides, and back, he may be sure his bowels are constipated, and his liver sluggish. To remedy is requested, when immediate steps will be taken DAYLIGHT. this unhappy state of things there is nothing to rectify the cause of dissatisfaction. like a good cathartic pill. It will not like a charm by stimulating the liver into doing its duty, and ridding the digestive organs of the accumulated Doisonous matter

But the good pill does not gripe and pain us, Interest. Good security. neither does it make us sick and miserable for a few hours or a whole day. It acts on the entire glandular system at the same time, else the after-effects of the pill will be worse than the disease itself. The griping caused by most pills is the result of irritating drugs which they contain. Such pills are harmful, and should never be used. They sometimes even produce hemorrhoids. Without having any particular desire to praise one pill above another, we may, nevertheless, name Mother Seigel's Pills, manufactured by the well-known house of A. J. White Limited, 85, Farringdon Road, London, and now sold by all chemists and medicine vendors, as the only one we know of that actually possesses every desirable quality. They remove the pressure upon the brain, correct the liver, and cause the bowels to act with ease and regularity. They never gripe or produce the slightest sickness of the stomach, or any other unpleasant feeling or symptom. Neither do they induce further constipation, as nearly all other pills do. As a further and crowning merit, Mother Seigel's Pills are covered with a tasteless and harmless Opal. coating, which causes them to resemble pearls thus rendering them as pleasant to the palate as they are effective in curing disease. If you Moderate Terms, have a savere cold and are threatened with a fever, with pains in the head, back, and limbs one or two doses will break up the cold and prevent the fever. A coated tongue, with a brackish taste in the mouth is caused by foul matter in the stomach. A dose of Beigel's Pills will effect a speedy cure. Oftentimes partially decayed foodin the stomach and bowels produces sickness,

nansea, &c. Cleanse the bowels with a dose of these pills, and good health will follow. Unlike many kinds of pills, they do not make you feel worse before you are better. They are, without doubt, the best family physic ever discovered. They remove all obstructions to the natural functions in either sex without any unpleasant effects.
